Carbon Block Puzzle is a straightforward and compendious way to learn the basics of climate change. Climate change is a critical issue nowadays and it's hard to tell right from wrong.The effects of climate change are already happening. The first inklings of damage have already been done. Unless more people learn about climate change, the darkest days of climate change could come soon. That's where Carbon Block Puzzle comes in. It educates readers on climate change and how to prevent it. Only if truth prevails will the right thing happen, and only then will humanity be safe from climate change.This book not only educates people but encourages them to do the right thing and help stop climate change, and to borrow Bill Nye's words, "dare I say it, save the world".Not only that, but Carbon Block Puzzle does this in a fun way, using the video game Block Puzzle. Above all, "A book is a foundation for education," and in the case of climate change that's exactly what we need right now.
