Saints Alive introduces the stories of the saints, reflects on their meaning for today and shows that true wisdom is timeless. The first four books in this series include The Life and Wisdom of Francis of Assisi, The Life and Wisdom of Margaret of Scotland, The Life and Wisdom of Catherine of Siena, and The Life and Wisdom of Benedict.

The book enthusiasts have been waiting for! From their inception in the 1940s through the end of production, this book discusses in detail the popular Farmall Cub, Bug Lo-Boy, and much-needed coverage of the Cub Cadet line. Amazing archival color images, advertisements, and detailed text deliver hard-to-find information on the development and design evolution of each model. Complete with implements, uses and improvements, serial number dates and codes, engine and carburetor coverage.

Fought over the course of four years, the Civil War pitted countrymen against countrymen, North versus South, friend against friend, and brother against brother. The photographs within these pages document the war that united America as one. These rare shots were taken in the middle of the battlefield during the earliest days of photography. Selected from a collection of seven thousand original negatives, these historic photos capture nearly every aspect of Civil War life. Among these photos are images of camps sprawling across acres, soldiers at their battlements, firing of heavy artillery, the aftermath of battle, and the terror that these young men faced. See first-hand of Union and Confederate officers strategizing their next moves, and Abraham Lincoln addressing his Union commanders. Originally released from the private collection of Edward Bailey Eaton in 1907, this edition is a must have for any Civil War buff or historian. No collection can be considered complete without these photographs by Matthew Brady and Alexander Gardner, as well as the meticulous passages that put the images in illuminating context.
