Join our Homes, Communities, Hope + You campaign, a network-wide fundraising initiative that will support Habitat's work in communities all across the United States and around the world. Help us — in this moment of global crisis — make sure that everyone has a chance at a brighter future.

Homes, Communities, Hope and You | Habitat for Humanity

Habitats are places in nature that provide food, protection from predators and unfavorable weather, and a home in which to raise young. Habitats are characterized most often by climate and location. They can range from warm, moist areas near the Equator—such as the Amazon rain forest—to cold polar areas such as the Arctic.

Animal Homes and Habitats | National Geographic Society

There are pictures of habitats, then homes you might find there, traditional clothing of that region, and animals you might find there. Children can sort things into their matching habitats and talk about why they belong there.

(Note: you could also use these materials for a diorama if your child would rather cut out pictures than draw them ...

Habitat for Humanity

Animal homes and animal habitats vocabulary, Animal homes and animal habitats word list - a free resource used in over 40,000 schools to enhance vocabulary mastery & written/verbal skills with Latin & Greek roots.

Animal homes and animal habitats vocabulary, Animal homes ...

All of these habitats are home to a diverse assortment of wildlife. Aquatic habitats include virtually every group of animals, from amphibians, reptiles, and invertebrates to mammals and birds. The intertidal zone, for instance, is a fascinating place that is wet during high tide and dries up as the tide goes out. The organisms that live in these areas must withstand pounding waves and live in both water and air.
