Black Knights began to appear in history during the Middle Ages. Since the 13th century, a series of legends mentioning the mysterious Black Knights emerged. Although the Black Knights were said to have carried out good deeds and fought to protect cities from unjust rulers and other threats, texts referring to these legends were censored and banned by the Church during the medieval period.

Looks at the origins of knights and chivalry, describes the everyday life of knights, presents information on knights throughout history, and covers the cultural legacy of knights.

A magisterial history of the origins, reality, and legend of the knight Born out of the chaos of the early Middle Ages, the armored and highly mobile knight revolutionized warfare and quickly became a mythic figure in history. From the Knights Templars and English knighthood to the crusades and chivalry, *The Knight in History*, by acclaimed medievalist Frances Gies, bestselling coauthor of *Life in a Medieval Castle*, paints a remarkable true picture of knighthoodexploring the knight's earliest appearance as an agent of lawless violence, his reemergence as a dynamic social entity, his eventual disappearance from the European stage, and his transformation into Western culture's most iconic hero.

Arthurian expert Sir James Knowles brings together fourteen tales of King Arthur and his knights, inspired by Alfred, Lord Tennyson's first four 'Idylls of the King'. Here is a fascinating journey through the land of ancient England where magic, mystery and warring factions come together in cataclysmic fashion. Beginning with the finding of the wizard Merlin, Sir James recounts the discovery of the legendary sword Excalibur, King Arthur's victory over the Saxons and his marriage to the beautiful Guinevere, as well as his battles against armies from Europe and his evasion of Queen Morgan's attempts to kill him with a magic garment. Tales include: † The Prophecies of Merlin and the Birth of Arthur † The Miracle of the Sword and Stone † The Lady of the Lake † The Founding of the Round Table † The Adventures of Sir Gawain Revealing the escapades of the Knights of the Round Table, such as Lancelot, Bedivere, Bors, Modred, Tristram and Galahad, as they seek to protect Arthur's kingdom, we discover how these fabled figures found their destiny. ABOUT THE SERIES: Arcturus Classic Myths and Legends brings together beautiful retellings of mythologies from different traditions, from Celtic to Native American.

They were known as the keepers of the Holy Grail, a sometimes mysterious band of religious warriors whose exploits across Europe and the Middle East have inspired modern-day conspiracy theories and movie plots. From Parzival through Indiana Jones and the Last Crusade to The da Vinci Code, the Knights Templar have had an enduring hold over the popular imagination. At dawn on Friday, October 13, 1307, they went from being one of the most powerful organizations in medieval Europe to prisoners and fugitives. They were questioned under torture and their leaders were executed for heresy. Officially disbanded in 1312, the Knights Templar ceased to exist. The legend of the Templars has proved harder to destroy. Rumors persisted of hidden treasure, of a curse that blighted a dynasty, and of a secret so powerful that it threatened the very basis of the Church. New organizations such as the Freemasons looked back to the Templars and became shrouded in myth and conspiracy theory themselves. The Templars is the first in a series of Colonial Gothic sourcebooks covering secret societies and other organizations. Within these pages, you will find detailed and authoritative information on the activities of the Knights Templar in the world of Colonial Gothic, including their acknowledged and secret histories, their structure and organization, their goals in the Thirteen Colonies, and around the world, and the implications of membership. Although they do not show their hand openly, the Knights Templar remains a force in the world of Colonial Gothic. Their hand is seldom seen, but it pulls on many strings.

An overview of the lifestyle and changing role of the knight during the Middle Ages.

The Faery Melusine of Lusignan was the subject of a prose romance by Jean d'Arras at the end of the 14th century, swiftly followed by one in verse by Coukrette. This book provides a collection of material from various sources, including translations from French texts, to give an all round picture of the remarkable faery, her town, her church, and the great Lusignan dynasty she founded.

The Knights of the Round Table were the original knights in shining armour, and this book is for anyone who is interested in fantastical tales of bravery or the actual history behind the stories. In medieval Arthurian tradition, Arthur often takes a back seat in the most exciting stories, appearing at the beginning and end of each to set the scene and conclude the tale. The central character is instead one of the Knights of the Round Table, each of whom is confronted with a wide variety of challenges and quests ranging from fighting monstrous creatures and rescuing damsels in distress to coping with courtly love and intrigue. Although Arthur is the best-known character from these stories his key knights † including Lancelot, Gawain, Perceval, and Tristan † are almost equally well known. This volume provides a collection of the most famous and interesting tales of the Knights of the Round Table, including the historical and literary background to the stories.

This fascinating reference covers the weapons and armor used by warriors from the 4th to the 15th century and discusses how and why they changed over time. \* Narrative chapters follow the development of medieval weapons and armor in four periods: early medieval (376/750), Carolingian (750/1050), the Crusades (1050/1300), and late medieval (1300/1550) \* The chronological reference section features vivid illustrations of representative swords, bows, cudgels, shields, and increasingly more sophisticated armor

A renowned scholar brings to life medieval England's most celebrated knight, William Marshalproviding an unprecedented and intimate view of this age and the legendary warrior class that shaped it. Caught on the wrong side of an English civil war and condemned by his father to the gallows at age five, William Marshal defied all odds to become one of England's most celebrated knights. Thomas Asbridge's rousing narrative chronicles William's rise, using his life as a prism to view the origins, experiences, and influence of the knight in British history. In William's day, the brutish realities of war and politics collided with romanticized myths about an Arthurian 'golden age,' giving rise to a new chivalric ideal. Asbridge details the training rituals, weaponry, and battle tactics of knighthood, and explores the codes of chivalry and courtliness that shaped their daily lives. These skills were essential to survive one of the most turbulent periods in English historyan era of striking transformation, as the West emerged from the Dark Ages. A leading retainer of five English kings, Marshal served the great figures of this age, from Queen Eleanor of Aquitaine to Richard the Lionheart and his infamous brother John, and was involved in some of the most critical phases of medieval history, from the Magna Carta to the survival of the Angevin/Plantagenet dynasty. Asbridge introduces this storied knight to modern readers and places him firmly in the context of the majesty, passion, and bloody intrigue of the Middle Ages. The Greatest Knight features 16 pages of black-and-white and color illustrations.
