We have a year 2000, N16, brand new imported, manual transmission and the fuel consumption is around 15km/l. The engine is 1600CC (QG16DE). I believe in this version (QG16DE) there are no any other issues as in 1500CC N16. Ours is completing 16th year with us (2nd owner) and we didn't face any abnormal issues except replacing sensors only once.

This work presents a brief history of the city of Montreal, as well as a description of the city's main squares, parks, public buildings, churches and more. The work also includes numerous photographs and illustrations of historical buildings and more.

This book consists of previously unpublished manuscripts by Vygotsky found in the first systematic study of Vygotsky ' s family archive. The notebooks and scientific diaries gathered in this volume represent all periods of Vygotsky ' s scientific life, beginning with the earliest manuscript, entitled *The tragicomedy of strivings* (1912), and ending with his last note, entitled *Pro domo sua* (1934), written shortly before his death. The notes reveal unknown aspects of the eminent psychologist ' s personality, show his aspirations and interests, and allow us to gain insights into the development of his thinking and its internal dynamics. Several texts reflect the plans that Vygotsky was unable to realize during his lifetime, such as the creation of a theory of emotions and a theory of consciousness, others reveal Vygotsky ' s involvement in activities that were previously unknown, and still others provide outlines of papers and lectures. The notes are presented in chronological order, preceded by brief introductions and accompanied by an extensive set of notes. The result is a book that allows us to obtain a much deeper understanding of Vygotsky ' s innovative ideas.

In 1920 the League of Nations Advisory Committee on the Traffic in Opium and Other Dangerous Drugs captured eight decades of political turmoil over opium trafficking. Steffen Rimner shows how local protests crossed imperial, national, and colonial boundaries to harness naming and shaming in international politics—a deterrent that continues today.

Krause Publications' Standard Catalog series is available by specific marque, in individual volumes or a set. Each book contains in-depth profiles of specific makes by model, factory photos, and up-to-date vehicle pricing. The I-to-conditional pricing system assures readers of accurate values, whether a vehicle is a #1 low-mileage, rust-free beauty or a #6 parts-only heap. "Techs & specs", original factory prices, production and serial numbers, and engine/chassis codes are noted by model, thus helping you determine authenticity accuracy. Historical, technical and pricing information are combined from hundreds of sources. James Flammang values each model according to the popular 1-6 grading system invented by Old Cars magazine.
