grasp the essentials quickly and easily. This approach ensures it also provides a concise reference for the trained plumber. Special features include: concise text many clear, full colour illustrations around 140 photographs topics focussed on the needs of NVQ/SVQ levels 2 and 3 additional topics beyond levels 2 and 3 a self-assessment section a problem-solving section This new edition has been thoroughly updated to take account of changes to the Building Regulations, including changes to the following approved documents: Part F: Ventilation; Part G: Sanitation, hot water safety and water efficiency; Part H: Drainage and waste disposal; Part L: Conservation of fuel and power and Part P: Electrical safety. A significant new section on energy conservation & sustainability has been added, and additional related material introduced where relevant. The extensive coverage with new, full colour illustrations to enhance legibility and understanding, and the emphasis on safety in the work place ensure this remains the definitive single volume for both student and trained plumbers.

This classic book in the Kemp and Young series has been fully revised and updated by David J Eyres, author of the well-known Butterworth-Heinemann title "Ship Construction," and will prove indispensable to the student reader. The contents cover, in numerous fully illustrated items, shipyard practices, principles of construction methods, the design and construction of the various component parts of the ship, and the overall arrangement of different types of merchant and passenger vessels.
