Mr Gorbachev, tear down this wall! This declamation by president Ronald Reagan when visiting Berlin in 1987 is widely cited as the clarion call that brought the Cold War to an end. The West had won, so this version of events goes, because the West had stood firm. American and Western European resoluteness had brought an evil empire to its knees. Michael Meyer, in this extraordinarily compelling account of the revolutions that roiled Eastern Europe in 1989, begs to differ. Drawing together breathtakingly vivid, on-the-ground accounts of the rise of Solidarity in Poland, the stealth opening of the Hungarian border, the Velvet Revolution in Prague, and the collapse of the infamous wall in Berlin, Meyer shows that western intransigence was only one of the many factors that provoked such world-shaking change. More important, Meyer contends, were the stands taken by individuals in the thick of the struggle, leaders such as poet and playwright Vaclav Havel in Prague; Lech Walesa; the quiet and determined reform prime minister in Budapest, Miklos Nemeth; and the man who realized his empire was already lost and decided, with courage and intelligence, to let it go in peace, Soviet president Mikhail Gorbachev. Michael Meyer captures these heady days in all their rich drama and unpredictability. In doing so he provides not just a thrilling chronicle of perhaps the most important year of the 20th century but also a crucial refutation of American mythology and a misunderstanding of history that was deliberately employed to lead the United States into some of the intractable conflicts it faces today.

ON THE TWENTIETH ANNIVERSARY OF THE FALL OF THE BERLIN WALL, MICHAEL MEYER PROVIDES A RIVETING EYEWITNESS ACCOUNT OF THE COLLAPSE OF COMMUNISM IN EASTERN EUROPE THAT BRILLIANTLY REWRITES OUR CONVENTIONAL UNDERSTANDING OF HOW THE COLD WAR CAME TO AN END AND HOLDS IMPORTANT LESSONS FOR AMERICA'S CURRENT GEOPOLITICAL CHALLENGES. " Mr. Gorbachev, tear down this wall!" President Ronald Reagan's famous exhortation when visiting Berlin in 1987 has long been widely cited as the clarion call that brought the Cold War to an end. The United States won, so this version of history goes, because Ronald Reagan stood firm against the USSR; American resoluteness brought the evil empire to its knees. Michael Meyer, who was there at the time as a Newsweek bureau chief, begs to differ. In this extraordinarily compelling account of the revolutions that roiled Eastern Europe in 1989, he shows that American intransigence was only one of many factors that provoked world-shaking change. Meyer draws together breathtakingly vivid, on-the-ground accounts of the rise of the Solidarity movement in Poland, the stealth opening of the Hungarian border, the Velvet Revolution in Prague and the collapse of the infamous wall in Berlin. But the most important events, Meyer contends, occurred secretly, in the heroic stands taken by individuals in the thick of the struggle, leaders such as poet and playwright Vaclav Havel in Prague; the Baltic shipwright Lech Walesa; the quietly determined reform prime minister in Budapest, Miklos Nemeth; and the man who privately realized that his empire was already lost, and decided -- with courage and intelligence -- to let it go in peace.Soviet general secretary of the communist party, Mikhail Gorbachev. Reporting for Newsweek from the frontlines in Eastern Europe, Meyer spoke to these players and countless others. Alongside their deliberate interventions were also the happenstance and human error of history that are always present when events accelerate to breakneck speed. Meyer captures these heady days in all of their rich drama and unpredictability. In doing so he provides not just a thrilling chronicle of the most important year of the twentieth century but also a crucial refutation of American political mythology and a triumphal misunderstanding of history that seduced the United States into many of the intractable conflicts it faces today. The Year That Changed the World will change not only how we see the past, but also our understanding of America's future.

p,p| [margin: 0.0px 0.0px 0.0px 0.0px; font: 15.0px Calibri] The year that changed a nation—through the lens of LIFE magazine There was a contentious presidential election, an unpopular war, and the assassination of two leaders. In addition to a resistance and a rebellion that both shocked and galvanized a nation. Revisit 1968, one of the most pivotal years in modern history, a year that saw profound changes in everything from politics to race relations, music, art and culture. 1968 lets readers explore this turbulent year through unforgettable photographs from the LIFE archive, as well as essays to place them in their historical context. Events unfold before your eyes, with essays on the Vietnam War and the antiwar movement, the assassinations of Martin Luther King Jr. and Robert Kennedy, NASA and the space race, rock and political activism, and the 1968 presidential election. Dozens of iconic photos plus meaningful quotes from some of the most powerful voices of the era make LIFE 1968 a thought-provoking remembrance of American history.

WINNER OF THE 2019 NATIONAL BOOK AWARD 1919 was a world-shaking year. America was recovering from World War I and black soldiers returned to racism so violent that that summer would become known as the Red Summer. The suffrage movement had a long-fought win when women gained the right to vote. Laborers took to the streets to protest working conditions; nationalistic fervor led to a communism scare; and temperance gained such traction that prohibition went into effect. Each of these movements reached a tipping point that year. Now, one hundred years later, these same social issues are more relevant than ever. Sandler traces the momentum and setbacks of these movements through this last century, showing that progress isn't always a straight line and offering a unique lens through which we can understand history and the change many still seek.

Don't miss Cathy's new honest, funny and refreshingly relatable novel about real women, real life and real relationships. OTHER WOMEN is available to pre-order now! \*\*\* Warm, witty and wise' Marian Keyes Three women, three birthdays, one year that will change everything... Ginger isn't spending her thirtieth the way she would have planned. Tonight might be the first night of the rest of her life - or a total disaster. Sam is finally pregnant after years of trying. When her waters break on the morning of her fortieth birthday, she panics: forget labour, how is she going to be a mother? Callie is celebrating her fiftieth at a big party in her Dublin home. Then a knock at the door mid-party changes everything... Treat yourself to the heartwarming and life-affirming new story from international bestseller Cathy Kelly \*\*\* Everyone loves Cathy Kelly: This book is full of joy - and I devoured every page of it gladly' - Milly Johnson 'Filled with nuggets of wisdom, compassion and humour, Cathy Kelly proves, yet again, that she knows everything there is to know about women' - Patricia Scanlan 'Packed with Cathy's usual magical warmth' - Sheila O'Flanagan 'A lovely story of life and change' - Prima 'Comforting and feel-good, the perfect treat read' - Good Housekeeping

It was not inevitable that World War II would end as it did, or that it would even end well. 1944 was a year that could have stymied the Allies and cemented Hitler's waning power. Instead, it saved those democracies-but with a fateful cost. 1944 witnessed a series of titanic events: FDR at the pinnacle of his wartime leadership as well as his re-election, the planning of Operation Overlord with Churchill and Stalin, the unprecedented D-Day invasion, the liberation of Paris and the horrific Battle of the Bulge, and the tumultuous conferences that finally shaped the coming peace. But on the way, millions of more lives were still at stake as President Roosevelt was exposed to mounting evidence of the most grotesque crime in history, the Final Solution. Just as the Allies were landing in Normandy, the Nazis were accelerating the killing of millions of European Jews. Wink shows how escalating pressures fell on an all but dying Roosevelt, whose rapidly deteriorating health was a closely guarded secret. Here then, as with D-Day, was a momentous decision for the president. Was winning the war the best way to rescue the Jews? Was a rescue even possible? Or would it get in the way of defeating Hitler? In a year when even the most audacious undertakings were within the world's reach, including the liberation of Europe, one challenge-saving Europe's Jews-seemed to remain beyond Roosevelt's grasp. Wink provides a stunningly fresh look at the twentieth century's most pivotal year. 1944: FDR and the Year that Changed History's first book to tell these events with such moral clarity and unprecedented sweep, and a moving appreciation of the extraordinary struggles of the era's outsized figures.

"This gripping and well-documented account of the history of the town of Vilnius and its surrounding region from the Polish ultimatum of March 1938, which forced Lithuania to open diplomatic relations with Poland, to the incorporation of Lithuania into the Soviet Union in June 1940 is set against the evolution of Lithuania's relations with her neighbours during this crucial period. It is a major contribution to the outbreak of war in September 1939 and the subsequent evolution of Nazi Soviet relations. Prof. Liekis presents a remarkable history based on archival sources never before utilized in any English-language study. In revealing the geopolitical, ideological, economic, social and ethnic dimensions of an immense tragedy in the heart of Europe, the author provides a new perspective on the unraveling of a society and nation during the initial days of World War II as prelude to the most violent period in European history."-Publisher's description.

Green opens up the gripping story of the Book of Acts, highlighting the astonishing, volcanic eruption of faith found there and comparing it to the often halfhearted Christianity of the modern Western world.

Opening in July 1914, as Mohandas Gandhi leaves South Africa to return to India, Gandhi: The Years That Changed the World, 1914-1918 traces the Mahatma's life over the three decades preceding his assassination. Drawing on new archival materials, acclaimed historian Ramachandra Guha follows Gandhi's struggle to deliver India from British rule, to forge harmonious relations between India's Hindus and Muslims, to end the pernicious practice of untouchability, and to nurture India's economic and moral self-reliance. He shows how in each of these campaigns, Gandhi adapted methods of nonviolence that successfully challenged British authority and would influence revolutionary movements throughout the world. A revelatory look at the complexity of Gandhi's thinking and motives, the book is a luminous portrait of not only the man himself, but also those closest to him—family, friends, and political and social leaders.

Provides a detailed look at 1968, a pivotal year in the history of the twentieth century, exploring the turbulent events, politics, culture, economics, and social changes that marked a volatile year.
